1. The lot was created before June 9, 1937, and:
 - a. Before October 1, 1972, the lot was:
 - (1) conveyed as an individually described parcel to separate, noncontiguous ownerships through a fee simple transfer or purchase; or

 - c. at a size five acres or greater, recorded between August 11, 1969, and October 1, 1972, and did not contain a dedication;
 - d. at a size twenty acres or greater, created after June 9, 1937, not subsequently merged into a

larger lot and recognized by the department or the department's predecessors before January 1, 2000;

- 3. Recorded deeds or contracts describing the lot or lots either individually or as part of a conjunctive legal description (e.g. Lot 1 and Lot 2); or
- 4. Historic tax records or other similar evidence, describing the lot as an individual parcel. The department shall give great weight to the existence of historic tax records or tax parcels in making its determination.

C. Once the department has determined that the lot was legally created, the department shall continue to acknowledge the lot as such, unless the property owner reaggregates or merges the lot with another lot or lots in order to:

- 1. Create a parcel of land that would qualify as a building site, or
- 2. Implement a deed restriction or condition, a covenant or court decision.

D. The department's determination shall not be construed as a guarantee that the lot constitutes a building site as defined in K.C.C. 19A.04.050.

E. Reaggregation of lots after January 1, 2000, shall only be the result of a deliberate action by a property owner expressly requesting the department for a permanent merger of two or more lots through a boundary line adjustment under K.C.C. chapter 19A.28. (Ord. 17191 § 11, 2011: Ord. 16687 § 1, 2009: Ord. 15031 § 2, 2004: Ord. 13694 § 42, 1999).

(Ord. 13694 § 43, 1999).

19A.08.090 Determining innocent purchaser status.

A. An innocent purchaser of a parcel divided in violation of King County subdivision requirements who files a notarized affidavit of innocent purchase with the department on forms approved by the director may seek to establish the parcel's eligibility for county development approvals and for lawful future conveyance; provided that nothing herein is intended to exempt development on innocent purchaser lots from compliance with development standards of the county's zoning code.

B. All contiguous parcels divided in violation of this title that are under common ownership at the time of application for innocent purchaser status shall be recognized only as a single lot.

C. Innocent purchaser status shall not be granted to any individual or group more than once. (Ord. 13694 § 44, 1999).

19A.08.110 Limitations within future road corridors. In order to allow for the development of future road corridors that would complete the public circulation system or that would provide a sole source of access for an abutting property, the county may limit improvements within specific areas of a proposed binding site plan, subdivision or short subdivision. These limitations may preclude the construction of buildings, driveways, drainage facilities or other improvements within the specified areas. (Ord. 13694 § 46, 1999).

The benchmark will be shown on the plans. If a King County Survey Control Network benchmark does not exist within one-half mile of the subject property, or two hundred fifty feet or greater of total vertical difference exists between the starting benchmark and the project, an alternate vertical datum may be used.

B. Horizontal requirements. The horizontal component of all plats, binding site plans and short plats shall have the North American datum of 1983/91 as its coordinate base and basis for bearings. All horizontal control for these projects shall be referenced to a minimum of two King County Survey horizontal control monuments. If two horizontal control monuments do not exist within one mile of these projects, an alternate coordinate base and basis of bearings may be used. (Ord. 13694 § 48, 1999).

19A.08.180 Circumvention of zoning density prohibited. A legal lot, which has been subject to a boundary line adjustment or created through a legally recognized land segregation process and is of sufficient land area to be subdivided at the density applicable to the lot, may be further segregated. However, such further segregation of the lot shall not be permitted if the total number of lots contained within the external boundaries of the lots subject to the original boundary line adjustment or the total number of lots contained within the external boundary of the parcel subject to the original land segregation, exceed the density allowed under current zoning. 19A.28 MINOR ADJUSTMENTS

Sections:

- 19A.28.010 Purpose.
- 19A.28.020 Procedures and limitations of the boundary line adjustment process.
- 19A.28.030 Final approval and recording required.
- 19A.28.040 Conceptual review.

19A.28.010 Purpose. The purpose of this chapter is to provide procedures and criteria for the review and approval of minor adjustments to boundary lines of legal lots or building sites in order to rectify defects in legal descriptions, to allow the enlargement or merging of lots to improve or qualify as a building site, to achieve increased setbacks from property lines or sensitive areas, to correct situations wherein an established use is located across a lot line, or for other similar purposes. (Ord. 13694 § 79, 1999).

19A.28.020 Procedures and limitations of the boundary line adjustment process. Adjustment of boundary lines between adjacent lots shall be consistent with the following review procedures and limitations:

A. Applications for boundary line adjustments shall be reviewed as a Type 1 permit as provided in K.C.C. chapter 20.20. The review shall include examination for consistency with the King County zoning code, K.C.C. Title 21A., shoreline master program, K.C.C. chapter 21A.25, applicable board of health regulations and, for developed lots, fire and building codes;

B. Any adjustment of boundary lines must be approved by the department before the transfer of property ownership between adjacent legal lots;

C. A boundary line adjustment proposal shall not:

- 1. Result in the creation of an additional lot or the creation of more than one additional building site;
- 2. Result in a lot that does not qualify as a building site pursuant to this title;
- 3. Relocate an entire lot from one parent parcel into another parent parcel;
- 4. Reduce the overall area in a plat or short plat devoted to open space;
- 5. Be inconsistent with any restrictions or conditions of approval for a recorded plat or short plat;
- 6. Involve lots which do not have a common boundary; or
- 7. Circumvent the subdivision or short subdivision procedures set forth in this title. Factors which

indicate that the boundary line adjustment process is being used in a manner inconsistent with statutory intent include: numerous and frequent adjustments to the existing lot boundary, a proposal to move a lot or building site to a different location, and a large number of lots being proposed for a boundary line adjustment;

D. The elimination of lines between two or more lots shall in all cases shall be considered a minor adjustment of boundary lines and shall not be subject to the subdivision and short subdivision provisions of this title or to K.C.C. 19A.28.030. The format and requirements of a minor adjustment under this subsection shall be specified by the department; and

E. Recognized lots in an approved site plan for a conditional use permit, special use permit, urban planned development, or commercial site development permit shall be considered a single site and no lot lines on the site may be altered by a boundary line adjustment to transfer density or separate lots to another property not included in the original site plan of the subject development.

F. Lots that have been subject to a boundary line adjustment process that resulted in the qualification of an additional building site shall not be permitted to utilize the boundary line adjustment process again for five years to create an additional building site. (Ord. 17191 § 15, 2011: Ord. 16950 § 6, 2010: Ord. 13694 § 80, 1999).

19A.28.030 Final approval and recording required.

A. A title insurance certificate updated-not more than thirty days prior to recording of the adjustment, which includes all parcels within the adjustment, must be submitted to the department with boundary line adjustment final review documents. All persons having an ownership interest within the boundary line adjustment shall sign the final recording document in the presence of a notary public.

B. Prior to final approval, documentation authorizing the transfer of property ownership shall be placed on the original boundary line map along with the legal descriptions of those portions of land being transferred when lots are under separate ownership. Lot lines within lots under the same ownership will be adjusted upon the recording of the boundary line adjustment.

C. Final record-of-survey document must be prepared by a land surveyor in accordance with chapter 332-130 WAC and chapter 58.09 RCW. The document must contain a land surveyor's certificate and a recording certificate.

D. The final map page shall contain the following approval blocks:

1. The King County department of assessments to be signed by the King County assessor and deputy King County assessor; and

2. The department of development and environmental services, to be signed by the director. (Ord. 13694 § 81, 1999).

19A.28.040 Conceptual review. Prior to proceeding through the boundary line adjustment process, an applicant may desire to pay for an optional preapplication meeting. At that time the department will perform a conceptual review based upon the information brought in by the applicant. (Ord. 13694 § 82, 1999).
